

**BIU NEWS 2010 MARCH**  
**EVENT SCHEDULE OF BIKETRIAL CATALONIA**

Thanks for the schedule of Biketrial Catalonia for 2010 season. That is a great work. We are waiting to receive event calendars from each delegate. Please do not forget to send it.

Dear Hiro and Libor.

I send the first 2010 event calendar with all races organized by BUE and BAC. It's a calendar prepared and shared by BUE and BAC and it is, for sure, a big effort for organizations. Everybody has to realize what it means the "crisis" in Spain; Catalan and Spanish BikeTrial is fighting hard to keep in good shape in order not to lose the gained terrain. As you can see, not just the top level is represented; also Regional and BikeTrial Schools Championship are present. We are proud of the previous work done to have so many competitions and we will work consequently so as to reach a good performance.

**BAC**

Païssos Catalans: 3 rounds  
Campionat de Catalunya: 7 rounds  
Campionat escolar: 4 rounds  
Copa Catalana (Indoor): 1 round  
Campionat Provincial Tarragona: 3 rounds  
Campionat Provincial Girona (10<sup>th</sup> Edition): 3 rounds  
WBC 2010: 1 round  
Campeonato de España: 3 Rounds (1 in Catalonia)  
Total events: 23

**BUE:**

Campeonato de España: 3 rounds  
Campeonato de Aragon: 4 rounds  
Campeonato Zona sur: 5 rounds  
Campeonato Zona centro: 1 round  
Total events: 13

**TOTAL BUE+BAC = 36 EVENTS**

Sincerely yours,  
Raimón Arjona i Toledo

Dear Yos,

Thanks a lot for your mail. I have been waited for the first contact from your country for a long time. And you are one who made it. Welcome you to Biketrial family. You can call me Hiro. Thanks for your participation for my event from far away. It was nice to talk with you and I tried to explain something about our sport, and thanks for your understanding. About "Kameoka cup" you took part in, it is a new type of Biketrial event with a new concept in Japan or even in the world, I am testing many new ideas through the event and always improving something. Therefore I can say it is one of the most advanced events. And you know it already with not only knowledge but also with your experience. That is very important. There are many things to write you but it should be step by step. From today, I will send you our news mail "BIU NEWS" to you. I send it to very important people in the world. I am sure it will help you to know much more about Biketrial. Could you send me your personal detail next time? And I will introduce you to our members in the world.

Sincerely yours,  
Hiro

Hello, Mr. Hirano!

It's Yosnison, you can call me Yos. Thaks a lot for all of your email that sent to Mr. Sakamoto. And also for the results and photos, Kameoka Cup, all...it was a great experience for me, thank you. All the peoples, they're nice and you either. I like the atmosphere there, everyone enjoying biketrial, come from any places with families and friends. Firstly, my father taught me playing biketrial using BMX with base guard on it. And it was fun for me, because that is unusual things to play with a bike. But by the time, I understand what that is. Biketrial. I'm not good enough in biketrial, not training enough, well...I like biketrial, and want this sport become major too and more known by peoples around the world, I believe it could. Latterly, I was try to introducing biketrial in Indonesia by make some exhibitions, events, shows, competitions from my club named "YOSNISON HINDRANCE [YH]-BikeTrial and Trials Club" with the helps from others (big thanks for them). I'm not the first, I saw a biketrial show (just a little) on TV about 6 years ago. But I couldn't find who are they. Until now, I've found almost everyone who playing biketrial in Indonesia. I have an experience when I make a competition, there is only me there. It's feeling bad, but I learned a lot. And when I make an exhibitions that actually for a mission to purely introduced "BikeTrial Indonesia" (it's not for an officially or kind a things like that. It's only for a mission to show there is other sports called biketrial because most of the people here call it BMX freestyle or MTB street, and there is biketrial in Indonesia, we are all together here to help, communicate each other.) But some people from other club want to be famous it self and introducing biketrial with

they way. I'm so happy, because I've found more people playing biketrial and increased even though only one. But...not all of them have a same mission and vision for biketrial, and not all of them is a good man. It's not easy, but I'll try to moving on. I was really happy to hear that you want to help, at least I have a person that really known biketrial, have a great mission and vision for biketrial. Thank you. I have promoted my club to some people and club via facebook so hoping they know there is biketrial rider in Indonesia. Some of them giving back response like from Spain and Australia, it was great, and they are glad to know that there is biketrial rider in Indonesia. I hope sometimes there is really BikeTrial Indonesia, and more BikeTrial around the world. This is some pictures from my facebook fan pages that include the cup, shows, etc. for you Mr. Hirano: Days before, I received a message on my club's facebook fanpages from young Malaysian men, he want to join the [YH] BikeTrial Cup. It was great news for me and biketrial in Indonesia, I hope you can help me how to make a truely biketrial competition. Really a great experience to meet you Mr. Hirano, thanks a lot and many regards.

Yosnison Maretsa
