**Dear Hiro, Dear friends,**

**WBC competition is ok. The problem is our of the center of Sonico town. Camping, Hotel, Section and secretary: OK. All service (electricity, telephone, water, gas) are OK. Road is OPEN till yesterday.**

**All people have work very strong during past day Saturday and Sunday and now all is return at normality. We live on Alp mountain and this is a very usual problem here (unluckily). This week a military bridge will be installed on the same place of old bridge. But this is not a problem for WBC because we use other trip.**

All things return at normality in very short time. Yesterday all Dynamic Trial club have modified a part of competition track and substitute 3 WBC section. TODAY ALL IS OK IN SONICO. Thank you very much, We wait all people in SONICO!

Best regards,

Giuliano
