

## **BIU NEWS 2012 AUGUST**

PS: Dear Jason, The official new BIU web site is ready to start. I hope you can help me to publish many news! Your last about WBC on Xbreaker is very good! Thank you very much! Giuliano Elite 2013 First of all where are the overall results from scratch? I still have not seen them, they are not on eurobiketrial and no one has passed on a link to anywhere they are. If we can all see the overall results and see how close the top3/top4/top5 were then It will be a lot easier to make a decision My opinion is that 7 riders is too many to promote to Elite. Elite is a special category, 7 is just a random number, if it is possible for 7 riders to be promoted it does not feel so important and makes being a seeded rider seem less special. Yes, some riders were very close to the top 3 or top 5 – But being 'very close' is not enough Top 3 yes, top 5 if they make a request Is my opinion

Hello Scott,

5 Riders. Who? In rules are not write the order of promotion. Is not write the first, the second ... So need find parameters. I suggest this parameters:

- A) Rider must result in the firsts 8 in Scratch.
- B) Rider must ask his promotion in Elite.

This is enough for me. Why? Because Rules are Rules. We don't can have opinion. We must follow the rules. All that is write is rules. All that is not write is not rules. So, for example today have a request from China. The Chinese delegate ask us to promote the 8<sup>th</sup> in Scratch. The Senior Zhao Xuan; a very good rider. Zhao have right to go in Elite and have "ask" to go in Elite. Why we can say "NO" to Zhao. For me is "YES". It's also possible that the volition of other Rider in Scratch is to remain in Senior and try to win the World Championship in Senior Category .... Or not? But we need OWS to show all this things to all Rider. What do you think?

## Giuliano

Dear Hiro,

Dear Presidium Member,

Dear Jury Member,

This question is very important. This question is the first step in the new BIU system. Jury have already vote. Armand Molla is in Elite Category. Yes ! Now Mr. Hiro want have reason over the Jury. In the same system that happens in the last 20 years. Jury have vote but Mr. Hiro is not agree. So he don't close the discussion never.

Dear Hiro,

In Sonico you have make a important declaration: You now will follow the statute. Who decide about the promotion in Elite: The President or the Jury ? If is the President need that Jury dont need. If is the Jury means that we follow the rules.

Giuliano	
To Giuliano and presidium,	
The delay of Scratch ranking was caused of some mistakes in the Scratch ranking in Sonico. Then we have decided only the top 3 (according to the rules as minimum top 3 go to Elite automatically). And left the rest decision in the later when we finished Scratch ranking. I finished it and sent it to Presidium and all delegates about a week ago. It was approved and it is the official results now. Therefore I forward the rest decision of the numbers to promote to Elite next year. As you know Scratch is not championship. It is just to see top 8 in RED color sections in WBC. It can be shown on web site, but to avoid confusion, better not together with WBC ranking results.	
The rest, from 4 to 8 can be decided by the BIU officials, checking the results in Scratch. It is normal. The process "Rider must ask his promotion in Elite" is not written in the rules. (May be good or may bad. We should think it from both sides.) But in this time we cannot add any rules or ideas. We better follow the active rules.	
I think Giuliano wants to start everything by new presidium, But we cannot change all things just in the over night. Does USA president leave the white house immediately after the election over? We made election of BIU president and presidium for 2013 and 2014. This season is not finished yet. Or is it written in the GA minutes or Statue to start the new presidium immediately soon after the WBC? Who has decided it? Presidium itself? I think web site should be forwarded first. We should discuss about our mistakes during WBC to improve for the next year. And we should decide about finance thing as soon as possible to forward WBC calendar for 2013. But the rest things should be left until 2013 to avoid confusion and delay.	
Biketrial is not only a sport in Europe. We need communication and adjustment with all delegates belongs to BIU. If we have no discussion with all delegates and just 3 people in the TC members decided all rules matters including Scratch without explanation, we will loose our important traditional things in one day not so long.	

If TC members take all decision, I cannot or do not have to take the responsibility. Thanks. Then I do not feel any reason to stay in this post for BIU. So you better select the new president if you want to forward things like that.

Sincerely yours,

Hiro
