WELCOME BY EUROPEAN BIKETRIAL UNION

The future Europe is a continent which will be developed by our today's children. BikeTrial is a sport which allows kids and youngsters to meet regularly on an international basis – to meet, to talk, to practice together, to compete and to enjoy time together. BikeTrial kids travel with their parents and learn about the lives of people in regions which they would normally not be able to reach as tourists. These young people will in the future always have a good idea of how different and similar are the lives of the people in various parts of Europe.

We are happy that we can once again visit northern Italy with our sport. In the last few years we have been repeatedly coming back to this beautiful part of Europe. This is because of the successes the Italian BikeTrial riders and organisers have achieved. In the name of the

European BikeTrial Union I want to thank the Italian national committee, organisers, sponsors and local authorities for the opportunity to compete in Valgoglio and this way also to contribute to a better future Europe in the hands of our today's youth.

Libor Musil - EBU President
